Dear Tom & Dale:

On behalf of Miami Children's Hospital Foundation, I want to thank you for once again choosing our organization as the beneficiary of the live and silent auctions at The Hardware Conference. As you know, we have been proud partners of the conference for over 15 years. Each year your vendors generously donate their product booths for the auctions and we greatly appreciate their support.

Miami Children's Hospital is a resource to thousands of children and families both locally and throughout the globe who turn to us each and every year. You should feel proud that Miami Children's is once again the only hospital in Florida with pediatric specialty services listed in all 10 categories ranked by *U.S. News & World Report's* 2012-13 "America's Best Children's Hospitals."

Healthy children are our ultimate priority. As you can imagine, it takes a lot of resources to stay at the forefront of the ever-changing field of medicine. Miami Children's is embarking on a capital campaign over the next several years with plans to expand the Emergency Department, build an Advanced Pediatric Care Pavilion and invest in the talent, research and innovation that will drive discovery, advance knowledge and enable cures.

Your support helps Miami Children's continue to offer the most advanced medical care to children facing anything from a fractured bone to brain cancer or heart disease. From life-saving technology and equipment to games and play areas that offer much-needed distractions to our children and families, we rely on the generosity of organizations like yours to remain a leader in pediatric healthcare.

Thank you again for your tireless efforts in organizing the conference and for your commitment to raising funds for Miami Children's Hospital.

Best regards,

Maria E. Moldes
